06/2021 - Present

Bangalore, india

Developer- ANA Airlines : An airline group centered on the aviation business,international flight ticket reservations and the latest seat availability and fares

#### Responsibilities/Tasks

- Working as a Spring Boot Developer in ANA PLUS Project for ANA Airlines, Japan
- Developed 10+ New Rest APIs from scratch using Spring Boot with JAVA 8 in lesser span mantaing product quality
- **PLUSGUL Online Function** :-Developed a complex online function aiming at performance purely dynamic CRUD operations maintained in Postgres
- Developed Spring **Batch Functions** Where We are extracting the flight and fare data from the data base and placed in to the file after that this file moving to other systems through AWS and also worked on extracting the data from data base to another database for this we have used spring batch. Also used Feign Client for communicating two microservices.
- Tasks : Developed everything from scratch, developing the project and using FeignClient for calling the external WebSvc, Responsible for understanding the scope of the Project and Requirement gathering and conversion of those into functional documentation , Responsible for the tasks of Writing Swagger Doc , developing the RestApi writing jointtestcases ,Checkstyles,Spotbugs,Sonarqube fixes, building, and checking the CI/CD Pipelines, and deployed it on AWS
- Attending iteration planning meeting at the end of iteration to discuss on the best practices and lessons learnt as well as adoption necessary points in future requirements.
- Created Pods for Developed applications in AWS productions Environment using Kubernetes
- Used AWS services like EC2,S3,CloudWatch ,ECR During applications development
- **Tools** : STS/ECLIPSE , POSTGRESE/PGADMIN, GIT BASH/GIT/CMD, AWS,SONARQUBE,POSTMAN,DOCKER

## EDUCATION

### Bachelor of Technology DVR and DR HS MIC College Of Technology,kanchikacherla

06/2017 - 07/2021

8.4CGPA

#### Courses

- Electronics & Communication of Engineering

### XII / Intermediate

Deeksha Junior College,Nandigama,Andhrapradesh

06/2015 - 05/2017

96 percentage

#### Courses

- MPC -Mathematics,physics & Chemistry

### X/Matriculation

Sree Vidya High School , Nandigama,Andhrapradesh

2014 - 2015

9.5 CGPA

## SKILLS

JAVA

SpringBoot

AWS

SpringMvc

Gradle

Postgres SQL

Docker

Kubernetes

GitHub

Swagger

REST APIs

MyBatis

Junit

Debugging

Airlines Domain

Spring Batch

## ACHIEVEMENTS

Team Champ Award (05/2023)

IBS Software

## LANGUAGES

Telugu

Full Professional Proficiency

English

Native or Bilingual Proficiency

## INTERESTS

Interested in developing codes specifically in RESTful web services using Spring framework.

Interested to explore new tools and learn new programming skills & technologies required for completion of development goals.

Interested in handling service oriented tasks and helping non-technical professionals with their technical needs.
